

NO! NO! NO! Leave us alone! If there is a violent show- TURN THE CHANNEL! I cannot believe you are allowing a minority of christian conservatives to make the rules for the entire country to bend over and take! I am so tired of hearing about parents that are too lazy to keep track of what their children watch. They expect the FCC to 'dumb down' all the programming so it is bland, boring, and ridiculously inane. Just so they are sure that nothing -they- think is horrible could ever reach their kids.

These are the same people that stick their heads in the sand and think their children aren't having sex, aren't trying drugs, and definitely aren't watching HBO. Yet, they act so shocked when they find out their children ARE doing those things... and have nobody to teach them right or wrong and end up carrying guns to school.

LEAVE OUR PROGRAMMING ALONE!!

P.S- FREE SPEECH Does -not- mean, 'what I want to hear' it means voice your opinion because you pay taxes, you move the economy, and you participate in the American way of life! I may not agree, but I do agree you have the right to say it!
